"The Stolen Bride"

IF YOU

Could only see the thousands upon thousands of newspaper stories that are published every day about Billie Dove, then you would realize how keen the press and public are for this new star!

Since her First Natural picture, fans and critics throughout the world are calling Billie Dove the screen's loveliest star. But in "The Stolen Bride," surrounded by all the pomp and luxury of royalty, she is at her charmingest best!

Tell this to the World!

This Week: "Alias the Deacon"

Chautauqua Again Big Success

Chautauqua closed on Monday evening after a very successful session, the attendance being highly satisfactory. The different programmes were generally enjoyed, the Hawaiian group which closed the session winning golden opinions. The program at large was balanced and provided something, at least, to suit practically every taste. It is understood signers were secured for the return of Chautauqua next year. The summer session would seem to be decidedly more popular than the fall sessions previously held.

Geo. Stoddard Moves to Parkland

Mrs. G. Stoddard spent the weekend in Champion with Mr. Stoddard, who moves to Parkland in the near future to take charge of the Grain Growers' elevator at that point. Mr. Stoddard has been in charge of the U. C. G. elevator since 1917 and is in consequence a very old timer in the elevator business here and will be missed by a large number of old friends. His family has resided in Calgary for some time and Parkland is nearer there than Champion. He is succeeded here by H. J. Friesen.

Theatre Magnate Visits Hollywood

Geo. Campbell is having a whale of a time in Hollywood and is visiting all the famous movie stars who appear so regularly in his theatre. "We may expect something special in theatre programmes on his return," Mrs. Campbell and family are also reported as having the time of their lives.

Margaret Smith Dies at Glenwood

Margaret Smith, 12 year-old daughter of Henry Smith, of Glenwood, died in the Cardston hospital on July 27th, following an operation for appendicitis. The funeral was held at Cardston on Sunday, where Margaret was laid to rest beside her mother, who died last January. Mr. Smith lived in the Champion district until a little over a year ago when with his family he moved to Glenwood. Many friends here will sympathize with him in his bereavement.

Massey-Harris Changes Hands

George Mark has disposed of the Massey-Harris agency and his office premises to Chas. Matlock, who took charge on Monday. Mr. Mark has carried on this business for some years and will be missed in the implement business. His successor is widely known in this vicinity and should make a success of his new venture.

Golden Rule W.I. "At Home."

The Golden Rule W. I. entertained a large number from Champion and other branches on Thursday. There was a large attendance and a very pleasant and profitable afternoon was spent. The splendid refreshments served were the subject of many complimentary remarks by the visitors.

Mr. and Mrs. Frank Caldwell and family returned from a trip to Banff and the Banff-Windermere route. They were accompanied on the trip by Mrs. Caldwell's mother who is here on a visit.

Seventh Elevator Under Construction

The Pioneer Grain Company have begun the construction of an elevator here, the site being where the loading platform is located at present. Material is now being placed on the ground and the building will be rushed to completion so as to get a share of this year's business. This, together with the addition of the Home elevator will considerably increase the storage capacity at this point, a feature which will be generally appreciated, when present crop prospects are considered. The new elevator will increase the elevator row to seven houses, all of them of good capacity.

Local and General

Mrs. F. Falcon, of Calgary, is the guest of Mrs. R. S. Bond.

Dr. and Mrs. Freeze left on Sunday on a holiday visit to Montana points.

Mrs. W. Duffy of Calgary is the guest of her sister, Mrs. Milford Simpson.

Mrs. P. M. Patterson visited with Mrs. Mallory, of Kilkenny, during the week.

A. W. and Lyman Jopling are spending the week on the Livingstone river, north of Lundbreck, after trout.

Mr. and Mrs. W. F. Bozarth visited Mr. and Mrs. J. Giolo at Bellevue, while en route to Banff via the circle tour.

Miss Fern Bond, Master Donald Bond and Miss Annie Campbell, the latter of Calgary, are holidaying at Waterton Lakes.

Residents of the Champion Consolidated school district are examining their tax notices this week with mixed emotions.

Mrs. W. S. Ryan and Mrs. Duncan are spending a few weeks in Calgary. Mr. Duncan returned home at the week-end.

The Guy Dow, Fred Genselburg, W. Summers and E. Ditto families returned from their holidays in time to take in the Chautauqua.

Mrs. J. M. Moffatt and children left for Calgary on Monday where they will be joined by Mrs. Moffatt's sister from Vancouver and proceed to Nova Scotia, where the remainder of the summer will be spent.

HON. CHAS. STEWART STRESSES CHANCES FOUND IN CANADA. ONLY BEGIN TO SCRATCH SURFACE HE TELLS CALGARY BOARD OF TRADE

Calgary, Aug. 6.—"I know of no other country in the world where there are greater opportunities than in Canada for the young men of our day and generation," remarked Hon. Chas. Stewart, minister of interior in the course of an address at luncheon of the Calgary Board of Trade on Monday in which he briefly dealt with the work and policy of his department regarding industrial development.

"We have only begun to scratch things in Canada. We raised four hundred million bushels of wheat last year and exported three hundred million bushels and if nothing happens to our present crop this enormous volume of grain will be increased this year."

Mr. Stewart stated what he particularly wanted to emphasize in connection with the work that was being carried on by his department regarding industrial development, was that they were not offering in any way to come to the city of Calgary and say they were going to locate an industry here, that it was bound to succeed and that all they needed was their co-operation, but rather to the intelligent hard-headed business men that there is a proposal that looks to have some merit, we want advice and the knowledge of local conditions before making our recommendations."

Incidentally he mentioned that what they proposed to do was to send a representative from the department to visit the Board of Trade here and throughout Canada, who would enter into the matters fully and in detail.

The young married couple were having a disagreement while waiting lunch at a modest Scho eating house. The woman was grumbling because they were unable to afford the luxurious restaurants which had been a feature of the honeymoon.

Come Out Of The Kitchen!

THURSDAY, Aug. 9, 1928

NOTES AND COMMENT.

Up-to-date there has been practically no damage by hail in the Champion district. There has been a small area where hail occurred but only a very small acreage was included and the damage was slight.

The extraordinary developments in the way of filling and ripening in the wheat fields during the past week has forced the abandonment of previously selected dates when cutting would be in progress in the spring wheat. It will be but a few days now until cutting will begin on old fields while general operations may be expected in the next ten days, according to opinions expressed by many farmers in the vicinity.

Appearances would indicate that preparations for harvest are well under way and will be complete by the time cutting is generally in progress. All indications are, too, that more equipment will go to the fields this year than ever before. While this is largely due to the adoption of combines it is by no means confined solely to this class of machinery. Binders still are in demand in many quarters and all other classes of machinery are included in the very large deliveries.

If the theory advanced by Cassel and a number of other modern economists is correct, that an increase in the volume of construction constitutes the best indication of those periods when a country is making rapid economic progress, an analysis of Canadian building statistics for the past four years would indicate that the country is in the midst of an unparalleled era of growth and development. It may be noted that McLean's Building Reports show a total value of contracts awarded in Canada during the first six months of 1928 amounting to \$255,000,000 compared with \$131,000,000 in the corresponding months of 1927; \$104,000,000 in 1926; and \$125,000,000 in 1925. In 1912, the record year before the present period of prosperity, the total for the first six months was \$219,000,000 and the amount for the year was \$463,000,000. Proportionately, industrial and business building contracts show a greater increase over 1925 than do contracts for buildings for residential purposes, and the amount devoted to public buildings, including schools, has shown no increase. The largest proportionate increases are shown in the contracts awarded for hotels, public garages, warehouses, and under the general heading of "Industrial." Such statistics indicate that the building program is on a sound basis with reference to the commercial and industrial requirements of the country, and that there is little evidence of boom building which would carry construction to a point beyond its immediate needs.—Royal Bank Monthly Letter.

FARM LABOR NEGOTIATIONS COMPLETED

London, Aug. 4.—(Canadian Press Cable).—Successful conclusion of negotiations with the Canadian government for sending of ten thousand men to the Dominion to assist in harvesting operations, was announced today by Rt. Hon. L. C. St. Amery, secretary of state for the dominions.

DEALING WITH CONFIDENCE

Farmers, both shareholders and non-shareholders, deal with confidence with this farmers' company.

They know the experience, resources, organization and equipment enable this Farmers' Company to give to farmers the best of service and equipment.

Deliver your grain to

UNITED GRAIN GROWERS LTD

ELEVATOR AT CHAMPION

Employment exchanges throughout the distressed mining areas will be closed on Monday, although it is a bank holiday, to facilitate the enrolment of miners who wish to take advantage of the reduced steamship fares to obtain several weeks' employment in the Canadian harvest fields.

It was chiefly for the benefit of the miners, Premier Stanley Baldwin announced on Wednesday, that the scheme was intended.

The offices of shipping agencies also will be opened on Monday for the purpose of making bookings for the temporary migrants.

GOOD ROADS WOULD PAY HANDSOMELY

Calgary, Aug. 6.—"I believe that Alberta would get two dollars back for every dollar that was put into road construction," opined L. W. Reynolds, Toronto, who was a visitor at the Sunshine auto camp over the weekend. Mr. Reynolds declared that he met hundreds of tourists about a month ago when he was on his way to the coast by the American route, who had come as far as they could into Canada and then had become panicky at road conditions and had turned back. I saw several times not to attempt to come to Calgary, but I decided not to heed the warnings and I am glad that I came."

Mr. Reynolds stated that when the Farmer government was in power in Ontario one of the greatest criticisms directed at that body was that it spent too much money on the roads. He felt that each criticism could not be expressed against Alberta's present government, however.

NUDE AND BATTERED BODY OF SOCIALLY PROMINENT LADY FOUND IN LOS ANGELES HOME

Los Angeles, Aug. 6.—Solution of another violent murder case confronted the police today in the slaying of Mrs. Myrtle Mellus, 41, wealthy and socially prominent.

Her nude and battered body was found yesterday in a bedroom of the Mellus house, located in a fashionable residential district.

Leo "Pat" Kelley, 35, a suspect, was found in a clothes closet on the first floor. He denied killing the woman, although he said he gave her a "terrible beating," police said.

Discovery of the crime was reported by her husband, Frank Mellus, clubman and vice-president of a wholesale concern, who returned home late from a day's fishing trip. The house was locked and he forced his way in. Discovery of the body of the suspect was made by police who overpowered Kelley when he fled.

The body appeared to have been stripped during a terrific struggle preceding the death blow, which apparently was delivered by a beer bottle. The room showed effects of a futile fight for life. Mrs. Mellus' face was badly bruised and her body mutilated.

Robbery was discarded as a motive when a jewel case containing jewels the husband valued at \$10,000 was found unharmed.

Kelley declared he had known the slain woman for five years.

Police found empty glasses and liquor in the house.

When confronted by the woman's husband, Kelley lunged at him and shouted take "these handkerchiefs off me, I'll kill him too."

En route to headquarters he attempted to leap from the police car several times.

Mellus and other relatives told police they had heard of Kelley.

19-YEAR-OLD HOLLYWOOD GIRL IS SHOT

Hollywood, Cal., Aug. 4.—The murder of Barbara Marger, 19, of Philadelphia, was the subject of police investigation today. Russell Bettsell, one time man of affairs in Philadelphia, is held, charged with the crime.

The body of the girl was found in a remote spot yesterday in the hills above Hollywood. She had been dead more than a month and the body was torn by wild animals, but physicians ascertained that she was about to become a mother and that she had been shot through the head. Bettsell told police that he had stolen \$300 from the firm which employed him in Philadelphia, and leaving his wife and two small sons, had run away with the girl to Hollywood.

She grieved, he said, that he obtained a divorce and marry her. They quarrelled. On June 24, according to Bettsell's statement, Miss Marger leaped from his car and dashed into the woods near the spot where the body was found. The day before he had borrowed a gun and gone to the same spot to practice shooting.

"You can't have a brass band everywhere you go," said the man crossly.

"Oh, yes, I can," snapped his wife.

"I've got it with me now—on my finger."

New Beauty-New Luxury
New Performance-nowhere equalled - -

NEW Masterpiece Bodies by Fisher endow these new McLaughlin-Buick creations with a measure of style, individuality and dashing beauty unsurpassed by any other automobile.

Gorgeous new colors and wonderful new upholstery—improved carburetion and other advancements in McLaughlin-Buick's famous valve-in-head six-cylinder engine—give tremendous new power to what was already the most powerful automobile engine of its size in the world.

Increased bore and stroke—greater piston displacement—improved lighting acceleration and new top speed that few drivers will care to attain.

Other features include new high-pressure gas pump—handsome new radiator design—new chrome-plated headlamps and cow-lamps—new type instrument board—as well as many additional appointments of luxury and convenience.

The 1929 McLaughlin-Buick is an epic car marking the supreme achievement of automobile engineering.

Confirm these facts at your McLaughlin-Buick showroom.

The G.M.A.C. Deferred Payment Plan offers many advantages to buyers of McLaughlin-Buick cars.

SEVENTH FORTNIGHTLY CROP REPORT

Wheat cutting will be fairly general in all sections of the province by August 20, according to telegraphic reports received on Friday by the Department of Agriculture for the seventh fortnightly crop report of the season. Wheat is filling well under the influence of the intermittent showers and warm weather since the last report and early sown fields are turning color rapidly. Harvesting of fall wheat has started in some southern districts and a very satisfactory yield is reported, although this was affected to some extent by the unusual drought during the month of May.

A good deal of the fall rye crop is in stock, and a good average yield is expected when this is threshed. Heavy stands of oats and barley are reported, and harvesting of these grains will be general during the last week in August.

Limited areas through the central and southern parts of the province have been visited by damaging hail storms during the past ten days but the injury to crops from this source is considerably less than at the same date last year. The 1928 crop has been particularly free from the attacks of insect and disease pests.

Cutting of early wheat has commenced in some districts in the Peace River and later crops are receiving the benefit of good rains which are expected to bring the yield of both wheat and coarse grains fully up to the average.

The first cutting of alfalfa is in the stack in Southern Alberta and the second crop in making rapid growth. Sugar beets are recovering well from the setback occasioned by the excessive rainfall of June and are promising a very satisfactory yield. Pastures are having an exceptionally good season, as a result of which livestock is in very good condition in all sections of the province.

'QUAKE DESTROYS MEXICAN TOWN

Mexico City, Aug. 6.—Dispatches from Pinotepa, state of Oaxaca, said that that town was partly destroyed at noon Saturday by the most violent earthquake ever recorded there. After a heavy quake at noon, fifty more tremors were felt on Saturday and ten on Sunday morning. The people are panicky and are living in the open in fear that the remaining buildings might collapse. Several "mountains" in the region were reported to have disappeared.

Other towns also suffered but no casualties were reported anywhere, although fears were entertained for Huixtotepec since no replies to telegrams have come from there. The other towns hardest hit were Jamiltepec, Cacahuatpec, Ilimacaca and Mizit.

The quake on Saturday noon was followed by torrential rains which added to the destruction.

PROBABLE TEXT ANGLO-FRENCH NAVAL TREATY IS NOW DISCLOSED

Tokio, Aug. 8.—Japanese naval authorities are reported to have hinted that the recent Anglo-French naval agreement makes no provisions:

"First, cruisers shall be divided into two classes, those armed with guns over six inches and those with guns under six inches.

Second, restriction of the gross tonnage of destroyers, the size of which must not exceed 1,800 tons. Third, restriction of the gross tonnage of submarines over six hundred tons, the size of which must not exceed 1,800 tons.

Fourth, no restriction to be placed on warcraft under 600 tons. When asked to confirm the forecast the official naval spokesman stated certain parts were correct while others were incorrect. As the details of the agreement were confidential, he was unable to say which were right and which were wrong. He intimated, however, that the restriction on the size of submarines up to 1,800 tons was incorrect.

The spokesman stated Japan was considering the matter and intimated that the authorities were in general accord with the agreement although they thought it doubtful if the United States would consent.

Expressing his personal opinion, the spokesman added the matter probably would be referred to the League of Nations. Afterwards, he thought it was possible that the Washington naval treaty powers would call another conference to consider the points raised.

NOBLE'S RESCUE DEFENDS ITALIAN

Rome, Aug. 6.—General Umberto Noble published a letter Saturday which he had received from his Swedish rescuer, Captain Lundborg, declaring that the reflections cast by certain foreign newspapers on General Noble's courage were without foundation. The letter described how General Noble had asked him to take Natale Cecconi first. Lundborg had answered that his instructions were to rescue Noble before any of the others.

Lundborg's letter states that only after this declaration and the repeated entreaties of the other survivors did General Noble consent to come away first.

A Great Achievement

Keen interest has been aroused in all parts of Canada by the announcement made at Victoria, recently, by Sir Henry Thornton, President of the Canadian National Railways, that, as a result of some years of study and work, a plan will be submitted to the Government and Parliament in the very near future providing for the financial reconstruction of the national system of railways, a plan which, in the words of the C.N.R. president, "will, in perpetuity, relieve the C.N.R. from being any further drag upon the treasury of Canada."

As a matter of fact, the financial reconstruction of the Canadian National Railways has been proceeding apace for some years past through the making of suitable arrangements with stockholders and bondholders of several of the railways now incorporated in the national system. These arrangements were a necessary preliminary step to a final consolidation and development of a plan whereby the system could be relieved of the huge burden imposed upon it by reason of its heavy over-capitalization.

In considering the Canadian National Railways, it is always to be remembered that it was not constructed, like the Canadian Pacific, as one operating unit. On the contrary, it is the result of the amalgamation of several different systems, with lines often duplicating each other in the same territory, with duplicate sets of shops, round houses, stations, and other equipment. Thousands of miles of the system were built, not for purely commercial reasons, but as a feature of national policy for the opening up, colonization, and national development of the Dominion. Some portions were located for strategic national reasons rather than from the standpoint of the investor or the taxpayer.

Under the circumstances, it was not surprising, but rather to be expected, that such railways would be operated at a deficit. Year by year these deficits have been charged up against the lines which ultimately became part and parcel of the present Canadian National Railways. These individual systems were, in reality, bankrupt when the Government was compelled to take them over to prevent a catastrophe and financial disaster which would have shaken the Dominion and all ruined its credit in the money markets of the world. Had these railways remained in private ownership and passed into receivership, there would have been a drastic writing down of capitalization and holders of the stocks and bonds would have had to take their losses, while the Dominion itself would have lost all the many millions loaned to them.

It has long been foreseen that, if the Canadian National Railways were ever to earn sufficient revenue to meet interest charges on its capitalization, the financial structure of the system would have to be reconstructed so as to more nearly bear some relation to the actual physical value of the system as a going concern. But, as already stated, certain arrangements with the stock and bond holders of the old railways had to be negotiated if Canada was to escape the stigma of having broken faith with these investors and the accusation of being guilty of a policy amounting almost to repudiation.

Neither Sir Henry Thornton, nor Hon. C. A. Dunning, Minister of Railways, has given any sign of the nature of the proposals to be laid before Parliament, but the people of Canada, as reflected by the editorial expressions of papers on all sides of politics, are decidedly friendly to the development of any reasonable plan which will give the management of the national railways a fair chance to make the system self-supporting and ultimately a profit making enterprise.

When Sir Henry Thornton, at the request of the Macdonald King Government, accepted the presidency and management of the Canadian National Railways, it was his duty to reorganize. From an operating standpoint it had to be completely reorganized. At that time it was not only not earning one cent of interest on its outstanding stocks and bonds, but it was being operated at an actual loss year after year, which had to be put up in cold cash out of the Dominion treasury. Next to the war debt of Canada, it was the greatest burden imposed on the Canadian people. The outlook was blue indeed, and many people feared it would bankrupt the Dominion.

Therefore, before any permanent reconstruction of its financial system could be undertaken, it was not only necessary to effect the arrangements already referred to, but even more necessary that these annual losses in operation be stopped. It stands to the credit of Sir Henry Thornton that in this he was markedly successful. Operating deficits ceased some years ago. Within the past two or three years these surpluses have been sufficiently large to meet all interest charges on securities held by the public, leaving a small balance to be applied on the enormous sum owing to the Government itself.

Addressing a meeting in a Saskatchewan town last month, Sir Henry Thornton stated that the surplus this year would be the largest in the history of the system, and that the outlook for the future of the road as a real and very valuable asset of the Dominion was never brighter, and this despite increased wages to employees and lower freight rates imposed by the Railway Commission.

The final and definite financial reconstruction of the whole system, and the resultant establishment of the Canadian National Railways as a self-supporting, publicly-owned transportation entity, will not only give the greatest satisfaction to the taxpayers of Canada, but it will prove a guarantee to the whole world of the financial stability and strength of the Dominion, and be hailed as another great Canadian achievement.

Red River Voyageur Dead

One of Last Survivors Of Courageous Northern Adventurers

One of the last of the Red River voyageurs, Eli Carriere, 89 years of age, died recently at Winnipeg, following a few weeks illness. Carriere was one of the last of the intrepid and courageous men organized by the Hudson's Bay Company to direct the

carrying of freight to Far Northern Canada and to return with the fur catch.

He assisted Colonel William Kennedy to organize the Red River Voyageurs, which went to Egypt in the eighties.

Indians Surrender Lands

15,000 Acres Blended In Saskatchewan To Be Sold

W. M. Graham, Indian Commissioner for the Prairie Provinces, announces securing the surrender of 15,000 acres of land on the Little Black River in the Balcarres, Sask. district. It is all good farming land, but much too extensive for the 40 persons then in possession. The land will be sold at public auction and the proceeds applied to improve the living conditions of the Indians.

A great deal of time is wasted by using the other fellow to have your own sense. If he hasn't common sense, he won't get it, so let him alone.

League Is Fighting Illicit Drug Traffic

New International Convention Goes Into Effect In September

A general world-wide tightening-up of the illicit "drugs" traffic is scheduled to take place when the League's new international system and various drug convention goes into effect on Sept. 23rd.

Although the convention was launched in 1925, provisions were made that it could only become effective when ratified by at least 10 states of which seven must be members of the League council including two permanent members.

To date the convention has been ratified or adhered to by nearly 30 states but it was only Canada's recent ratification that gave the necessary number of council members.

THE UNTOUCHED MEAL

People Who Go Hungry With Food On The Table

I simply cannot eat. Actual tragedy is suggested by these simple words, so often heard, because of the fact that in a chronic form, trouble that sooner or later reveals itself as indigestion, nervous dyspepsia, with violent, heartburn and other serious symptoms. Loss of appetite, whether a man or woman is a symptom you dare not ignore. If you do, such suffering is sure to follow.

The secret of a good appetite, the secret of good health, lies in keeping up the quality of the blood. By enriching and purifying the blood, Dr. Williams' Pink Pills supply strength to the affected organs of digestion, and enable them to digest thoroughly, the food eaten without causing any trouble. I have tried many medicines, but none have helped me, until I began to take Dr. Williams' Pink Pills and I decided to try them. I am no more than glad I did, for soon I found relief, and after taking the pills for a couple of months the trouble was completely cured. I can eat all kinds of food, and have again my old time health and strength.

Send For These Health Books. Two useful books, "Building Up the Blood," and "What to Eat and How to Eat," will be sent free by The Dr. Williams' Medicine Co., Brockville, Ont. If you mention this paper, Dr. Williams' Pink Pills are sold by all dealers in medicine or will be sent by mail, post paid, on receipt of price, 50 cents per box.

First Woman Air Pilot

Lady Health Employed By Royal Dutch Air Lines

Lady Health, not Dutch air woman, has been engaged by the Royal Dutch Air Lines as a pilot for the passenger air service. She is the first woman to be employed as a pilot for the passenger air service. She is the first woman to be employed as a pilot for the passenger air service. She is the first woman to be employed as a pilot for the passenger air service.

For Scalds Or Burns.—Dr. Thomas' Eucletic Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pain arising from inflammation of various kinds. A bottle in the home and stable saves many a doctor's and veterinary's fee.

The wood of the balsam fir is very light in color, and being odorous, is very suitable for boxes intended for packing food materials.

SUMMER COMPLAINT Nearly Lost Her Little Girl

Mrs. Theodore Rivett, author, writes: "Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak, had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

and after she had taken a few doses she was relieved. I also found it a grand remedy for cramps, and would not be without a bottle of it in the house for anything."

Has been on the market for over 50 years and put up only by The T. S. Moore Co. Limited, Toronto, Ont.

Write to The DORCHES CO. LIMITED, MONTREAL, for booklet with 55 tested recipes.

St. Charles Milk Unsweetened

Recipes For This Week

(By Betty Barclay)

SCALLOPED EGGS AND CHEESE

1 eggs
1 cup grated cheese
1 cup soft bread crumbs
1 teaspoon salt
1 cup white sauce

Break the eggs into a buttered baking dish and cook in hot oven until they begin to turn white around the edges. Then cover eggs with white sauce, and over this the mixture of crumbs, cheese and seasonings. Brown in very hot oven, so eggs will not be overcooked by time cheese is brown.

BOLY-POLY

2 cups flour
1 teaspoon baking-powder
1 teaspoon salt
1 tablespoon butter
1 cup milk, scalded
1 cup sugar
1 orange

Grated rind 1 orange.
Mix and stir flour, baking-powder, and salt. With tips of fingers rub in two tablespoons butter, and mix to a dough with milk. Roll out one-half inch thick, and cover with small pieces of orange pulp. Mix sugar, orange juice, and remaining butter, and sprinkle two-thirds of it over the orange. Roll up; pinch ends together, place in baking dish, sprinkle with remaining sugar; surround with water, and bake about thirty minutes. Serve with an orange or lemon sauce.

Mittler's Worm Powders are a prompt relief from the attacks of worms in children. They are powerful in their action, and while leaving no ill-effects, they are so pleasant, have an invigorating effect upon the youthful system, remedy fever, biliousness, loss of appetite, sleeplessness, and other ailments that follow disordered action of the bowels in the stomach and bowels.

Small Thing To Look For

But Twenty-Fifth Billionth Of Inch

Measurements equivalent to the one-25,000,000,000th of an inch have been made by Charles E. St. John, of Mount Wilson Observatory, whose searches to prove the contention of Professor Einstein, that a ray of light is "bent" when it passes a gravitational field, such as the sun. Professor St. John of the Yerkes Observatory, explains that the amount of displacement sought and found by St. John is very minute, being a trifle less than one twenty-fifth billionth of an inch. It was a small thing to look for, but a big thing to find, because it presents another proof of the Einstein theory in regard to light rays.

Only the uniformed endow the agony of corns. The knowing ones apply Hollister's Corn Remover and get relief.

To Represent Canada

Canadians To Attend International Fuel Conference in London
Edgar Stansfield, research engineer, scientific and industrial research council of Alberta and J. J. Hannel, chief engineer, division of fuels and fuel testing, department of mines, Ottawa, will represent Canada at the international fuel conference to be held in London, England, Sept. 24 to Oct. 6. The conference is to be held under the auspices of the world power conference at the Imperial Institute. Some 22 countries will be represented.

It is expected that extensions of railway lines in the Peace River country, Northern Alberta, will be completed in time to handle the 1928 crop shipments, which promises to exceed all previous records.

Mittler's Liniment — The Universal Remedy.

Much Like Human Beings

Fish Have Same Allments and Benefits Of Exercise

"Fish are very much like human beings. People who have them for pets should realize this and give them some consideration," says Miss Ida M. Mellen, America's only woman fish doctor.

"Fish suffer from much the same ailments that the human species do and they cannot exist if their conditions of life are uncomfortable.

"We learn a lot about people from fish. Take the matter of exercise. If fish get lazy and won't exercise, they get sick. To remedy this at the New York Aquarium, we give them a change of scenery. You would be surprised how a more attractive swimming ground and less extra amount of sunlight arouses their enthusiasm.

"If fish eat too much of the wrong food, they get indigestion just like humans. And, like humans, they hate to take castor oil. I have had fish hold it in their mouths until it came out later, rather than swallow it. We have to watch them just like children to see that they get their medicine.

"An excellent motto to make sure your pet fish has good care is, 'Try imagine yourself in his place. That's how you think.'

Would Be Sensible Law

Motor Brakes Should Have To Pass Certified Tests Regularly

It is strongly suggested that the time is coming in the near future when brakes must be tested and certified regularly, and the careful motorist will make no objection.

When it is remembered that 800,000 people were killed or injured in automobile accidents in the United States alone last year and the fact that faulty brakes cause a majority of all accidents, the need for such a law may be realized. It is the height of folly to drive with faulty brakes.

The Terror Of Asthma comes like a thief in the night with its choking, breathing, robbing its victim of breath. It seems beyond the power of man to do anything to relieve it.

It is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes more living, and, if the remedy be used persistently, the disease is put permanently to rest. Take no substitutes.

Quite Possible

"The evening wore on," continued the man who was telling the story. "Excuse me," interrupted the would-be wit, "but can you tell me what the evening wore on at that occasion?"

"I don't know that it is important," replied the story-teller, quite unperturbed. "If you must know however, I believe it was the close of a spring day."

For every dollar Canadian tourists spent in the United States in 1927, American tourists spent four dollars in Canada, it is said.

CUTICURA

Best For Both Mother And Child

Regular use of the Soap, as advised by the Ointment when required, not only cleanses and purifies the skin of children and adults, but tends to prevent clogging of the pores, the common cause of pimples and other unsightly conditions.

Sample Box Free. Ask. Address: Canadian People's Magazine, Ltd., Montreal, P.Q. Cuticura Soap 25c. Cuticura Ointment 25c.

HERCULES

PERMANENT BUILDING PAPER

MR. THINKER—

here's your health

Most of your clients are thinkers. A few facts regarding Hercules will impress them.

Hercules—in three grades, x, xx, xxx—in tested and proven wind proof and damp proof. A little thought will show them that this is all a building paper should be.

And above all, by these very qualities, Hercules becomes the protection of the most precious treasures of the occupants of any home—their health.

A sample of Hercules is yours for the asking.

The pain of insect bites disappears quickly with the application of Minard's. Try a bottle.

MINARD'S

"KING OF PAIN" OINTMENT

EXPEDITION TO ARCTIC AREAS MAKES PROGRESS

Ottawa.—All goes well with the Hudson's Straits expedition, both on the ice infested sea, and in the air. Daily a wireless message comes down from Wakeham Bay and from the ice-breaker Montclair, giving the weather conditions and the position of the Montclair. Unless something unusual happens the daily reports contain nothing else, and for some time past these meagre details have been the tone of the reports. The Montclair today is in the straits. Making ice and current observations and gathering data for the establishment of ice directional wireless stations as aids to navigation.

The other arctic expedition now in the far north has left Port Inlet in the Beothic and is making its way to Dundas Harbour enroute to the most northerly station in the world, the R.C.M.P. post at Desolation Bay, which is only 11 degrees from the pole, and where the night is six months long in winter.

The Beothic safely got through the pack ice north of Baffin Bay, the real danger zone of Arctic exploration. In attempting to cross in the Beothic, the expedition was met by Sir John Franklin many years ago caught in the ice and was held for a year, drifting slowly down into Davis Strait and not getting out until the following spring.

Ships crossing from Greenland can only get to the northern islands by going up along the Greenland coast, away past the ultimate destination. Then working into the straits, and angling over to the western shores.

If a ship gets into the pack ice too soon it is liable to have McClintock's experience and be lost. The Beothic, however, has successfully passed its Arctic rubicon and has made Pounds Inlet on the west coast.

All-Canadian Phone Service

Gap Between Sudbury and Fort William Has Been Bridged

Toronto.—An all Canadian telephone line linking Ontario and Quebec with the Twin Cities at the head of the lake and Montreal was officially opened and the necessity of switching calls through the U.S. will therefore be eliminated.

The Canadian Pacific Railway, Bell Telephone Co., Manitoba Government Telephone system and the municipal systems of Fort William and Port Arthur co-operated in the all Red route.

The gap to be bridged was the sparsely populated section between Sudbury and Fort William, and the connection between existing long distance telephone systems was figured by a C.P.R. right-of-way.

Brings Message From England

Boy Scout From Westminster Going To New Westminster

Quebec.—En route to New Westminster, B.C., where he will deliver messages from the mayor of the city of Westminster, England, to the mayor of New Westminster, B.C., and from the first Westminster troop of Boy Scouts to the Westminster troop on the Pacific, Jack Turbie, a member of the British Boy Scouts, reached Canada recently on the Montclair. He came over as a member of the crew, being a cabin boy while crossing the Atlantic.

Hickman Cries Proceeds

San Francisco, Cal.—William Edward Hickman, youthful slayer of Marion Parker, Los Angeles banker's daughter, was one step nearer the gallows today, as the state supreme court denied the petition for a rehearing of the case. Hickman is expected to be re-sentenced to the gallows within sixty or ninety days.

On Way To Far East

Montreal.—His Royal Highness, Prince George, the King's youngest son, will arrive in Quebec City on August 16, aboard the Empress of Australia. Prince George is on his way to the far east where he is going to join the China flag ship. From Quebec he will journey by train to Vancouver.

Fund Is Growing

Stockholm.—The cancer fund, which was begun as a birthday tribute to King Gustave on his seventh birthday, already amounts to \$1,500,000. It was found that the fund will be applied by His Majesty's wish to cancer treatment research.

W. N. O. 1743

Crowds Welcome Noble Party

Meet Train At Every Stop In Italian Territory

Rome.—"Viva Nobili!" was the slogan of Italy as counterparts of the polar explorer welcomed him and other survivors of the dirigible Italia to their homeland. Enormous crowds met the train at each stop in Italian territory, showing the Italian explorer, explorer, flowers and gifts of wine, and shaking rafters of railway stations with their roars of encouragement.

The demonstration constituted a veritable march of triumph from the northern frontier.

Premier Mussolini sent the prefect of Bolzano to welcome Nobili and his men at the Brenner pass in the name of Fascist Italy. There also were strident demonstrations at Trento, Verona, Bologna and Florence.

Lieut. Alfredo Viglieri, navigator of the dirigible Italia, who was in command of the red tent encampment on the ice after Nobili himself was rescued, was the centre of demerit on the train. He left the train soon after passing the frontier and went to his home in the little town of Borghetto Santo Spirito. En route, however, he had a stop at Milan, where the prefect and an enormous crowd welcomed him.

The crowd shouted "Viva Viglieri!" and "Viva Nobili!" and added: "Down with the jackals of the anti-Italian press!"

Initial Pool Payment

Statement Made That Payment On Current Year's Crop Will Be Same As Last

Ottawa.—The first payment by the Wheat Board of the current year's crop will be the same as last year, said Arthur C. Catton, of the Canadian Agricultural Association, of district nine of the Saskatchewan Pool. This means that the first payment on No. 1 Northern wheat delivered at Port William will be one dollar per bushel, 97 cents for No. 2 and 92 for No. 3.

Under the fall plan, the wheat has taken in price during the past few weeks, the pool is not worrying, Mr. Catton stated, and it has every hope of getting the crop to advantage. Discussing the cut-off date that is in demand by many farmers, he said in Canada, the pool is not in a position to accept it except in the exceptional circumstances of wheat falling to such a low level that the non-pool farmer, sensing the opportunity to better himself by joining the pool, attempted to come in at the last moment.

Fewer Leaving Canada For United States

Figures For Year Just Closed Show 1147 Less

Montreal.—Emigration from United States into Canada from the eastern section of the boundary decreased in substantial manner during the fiscal year ending June 30, 1928. Figures for the year are announced by H. R. Landis, United States Commissioner of Immigration at Montreal, head of District No. 1, which extends from Halifax to Kingston. In this district, which roughly covers the eastern boundary, emigrants admitted to the United States from Canada for permanent residence totalled 34,353 during 12 months ending June 30, 1928. For the previous year the total was 45,831 emigrants, or 11,474 more than in the year just closed.

Death Of Mrs. W. S. Fielding

Ottawa.—Mrs. Hester, Fielding, widow of Right Hon. W. S. Fielding, former Canadian minister of finance, one of the capital's most distinguished women in social and philanthropic circles, died at the family residence here. She had been falling in health for nearly four years and had been almost entirely confined to her bed throughout that period. Mrs. Fielding was soon to have celebrated her 80th birthday.

Law Suits Total Millions

Budapest, Hungary.—Law suits totalling \$300,000,000 have been instituted in the international tribunal at The Hague against the Jugoslav Government by the former Archduke Frederick of Austria and 25 others. The suits are based upon confiscation of property. Frederick claims a loss of \$17,000,000.

No Car Shortage For Crops

Winnipeg.—There is no shortage of cars for handling of this year's grain harvest in the international terminal at the Hague against the Jugoslav Government by the former Archduke Frederick of Austria and 25 others. The suits are based upon confiscation of property. Frederick claims a loss of \$17,000,000.

Civil Service Council

Hon. Peter Meenan Wants Representatives To New Government

Ottawa, Ont.—Hon. Peter Meenan, minister of labor, stated that he is issuing invitations to all the various organizations to select representatives to meet with the government in order to draft a constitution for a national civil service council. This action is in line with the report of the select standing committee on industrial and international relations, which devoted some considerable time during the recent parliamentary session to this matter. The minister has left the capital for Winnipeg.

Plans Visit To Canada

Bible Winner May Take Part In Dominion Bible Meet

Montreal.—Arthur C. Hale, winner of the King's Prize Bible this year, is coming to Canada according to the eight members of Canada's 1928 Bible rifle team, who arrived here from England. Hale, a 25-year-old gunsmith, of Birmingham, intends it is said, to take part in the Dominion Bible meet at Ottawa. He has been shooting eight years. His father and brother are crack shots. It is understood that six members of the Australian team also will come to Canada for the same meet.

BRITISH MINERS COMING TO ASSIST WITH HARVEST

London.—Arrangements have been finally concluded for 10,000 men to go from Britain to Canada to assist in this year's harvest, stated Rt. Hon. L. C. M. S. Amery, Secretary for the Dominions, in the House of Commons.

The Dominion Government especially wished that the men be recruited from the mining areas, and the British Government would carry out these wishes, the minister said. He indicated the Canadian government is greatly indebted to the Canadian government for the readiness with which it co-operated in this arrangement.

Ottawa.—The Canadian government is not assuming any financial responsibility for the movement of the British harvesters either coming or going, it was stated at the immigration department recently. The department, however, has expressed its willingness to co-operate in every possible way in placing men who wish to stay in Canada after the harvest is over.

Under the arrangement reached, the men will be returning with the benefit of the reduced rate they paid travel. But it is assumed that most of them will wish to remain in Canada, and the problem will arise of their absorption without increasing winter unemployment in the cities.

Fire-Eater Burned

London, Ont.—Essaying to entertain his fire company by going with a match a molecule of gasoline, Alex. Johnston, young Irish farm hand, was badly burned about the neck, chest and arms when the lighted torch suddenly. He was blowing the gasoline toward the match flame when the liquid ignited.

WALKING THE BEARS.

Master "Kawin" and Miss "Nichin" photographed near the Windsor station in Montreal with their bear. They form a "No Good" combination, "Kawin" meaning "Go," and "Nichin" meaning "No," in Indian dialect. The bear cub was with a sunny disposition, and the former a young gentleman with a rather bad temper at times. They were obtained by the General Tourist Department of the Canadian Pacific Railway from Fred Arnold, who captured them in the Lake Temiskaming district. The two bear cubs are being sent over to Italy, where they will be used by the Pinedo in his plane, and down to their new home.

HEADS RETAIL MERCHANTS ASSOCIATION

St. Catharines, Ont.—The crash of the steel gate of lock number six of the new Welland Canal, at Thorold, Ont., caused the deaths of at least nine workmen and injuries, some of which have proved serious, to about 30 others. About 40 workmen were in the vicinity of the lock when the disaster occurred, and none is believed to have escaped death or injury.

The accident was caused by the boom of one of the cranes slipping when an effort was being made to raise a huge 500-ton steel gate into place on the West side of the lock. Two cranes were at work at the time, one handling each end of the heavy gate. The crane nearest to the head of the lock held but the boom of the crane at the lower end slipped.

The huge gate crashed into the steel gate fabric at the east of the head of the lock, and fell to the bottom of the lock, crushing the workmen as it fell.

Grant For Class "B" Fairs

Will Receive Same Assistance From Government As Given Last Year

Ottawa.—It has been decided by the government that class "B" fairs will receive the same grant in 1928 as they did in 1927. This was stated by Mr. J. H. Giesche, deputy minister of agriculture, when asked respecting a report that the government was contemplating giving these fairs some measure of assistance.

During the last session of Parliament no appropriation was made for class "B" fairs, as had hitherto been done, the entire government of this connection going to the class "A" expositions. Considerable opposition to this has been developed among the former element of the House of Commons and the agricultural estimates were subjected to severe criticism on this account both by friends and opponents of the government.

The deputy minister's announcement restores the former status of the class "B" fairs for the current year.

Must Keep Arctic Rescue Film

Moscow.—The Russian relief committee approved recently the refusal of aviator Chukhovskoy, of the Russian Ice-breaker Krasin, to hand over to General Umberto Nobili film he took when he sighted two men of the dirigible Italia on the ice off North-east Land. In refusing to give Nobili the originals of the film, the relief committee said Chukhovskoy was right, for he had been ordered strictly to retain all material and data gathered.

Fire-Eater Burned

London, Ont.—Essaying to entertain his fire company by going with a match a molecule of gasoline, Alex. Johnston, young Irish farm hand, was badly burned about the neck, chest and arms when the lighted torch suddenly. He was blowing the gasoline toward the match flame when the liquid ignited.

WALKING THE BEARS.

They were obtained by the General Tourist Department of the Canadian Pacific Railway from Fred Arnold, who captured them in the Lake Temiskaming district. The two bear cubs are being sent over to Italy, where they will be used by the Pinedo in his plane, and down to their new home.

Nine Workmen Killed In Ontario Accident

Crushed By Falling Steel Gate On Welland Canal

St. Catharines, Ont.—The crash of the steel gate of lock number six of the new Welland Canal, at Thorold, Ont., caused the deaths of at least nine workmen and injuries, some of which have proved serious, to about 30 others. About 40 workmen were in the vicinity of the lock when the disaster occurred, and none is believed to have escaped death or injury.

The accident was caused by the boom of one of the cranes slipping when an effort was being made to raise a huge 500-ton steel gate into place on the West side of the lock. Two cranes were at work at the time, one handling each end of the heavy gate. The crane nearest to the head of the lock held but the boom of the crane at the lower end slipped.

Ottawa Crowds Greet

Lieut. Desmond Burke

Ottawa.—With the jubilant of his fellow citizens ringing in his ears, Lieut. Desmond Burke, of the Governor General's Foot Guards, who in 1927 won the King's Medal, and this year came within one point of duplicating the feat, came home.

He was accorded a spontaneous welcome by large crowds which thronged the central station, blocked by the entrance and stretched several blocks along nearby streets. Among those on the platform to welcome him were his parents and relatives, were Premier Mackenzie King, Mayor Arthur Ellis, and members of the board of control and the city council.

Message From Lost Aviators

Note Found In Bottle Signed By Names Of Alex. Mackay and

Amsterdam, Neth.—William, of Vancouver, sent the Canadian flag to the top of the Olympic pole for the second time in three days, in token of a world victory in the Olympic games. The youthful springer made the jump of 100 metres, and against some of the finest and most experienced sprinters in the world, including Jackson Scholl of the U.S. He held the title, William, the Olympic champion at 100 and 200 metres, the first double sprint winner in the Olympiad of 1928.

C. P. R. REVISED BRANCH LINE HAS BEEN SANCTIONED

Ottawa.—The Board of Railway Commissioners has sanctioned the proposed revised general location of the Canadian Pacific Railway's new current Northwesterly branch which projects northwesterly in a direction which, it is intended, will ultimately have as its terminus, Winnipeg, Alta.

In delivering the judgment, Hon. H. A. McKenna, chief commissioner, details the history of the construction of the company's branch line, and notes the objection of the council of the Canadian National Railway, which said this would be really an extension of the Cuthbert-Whitford Lake branch, from which, the National Railway contended, the Canadian Pacific has not obtained parliamentary authority. Counsel for the Canadian National advanced that the terminus of the Cuthbert-Whitford Lake line was at Willington and that the road to Saskatchewan could not be built as an extension of this line.

It was further argued that the Swift Current Northwesterly branch was originally projected from Swift Current to Edmonton via Empress, Cereal, Cornsanton, Oshawa and Carleton Place. Of this only the portions between Swift Current and Empress and between Empress and Carleton Place had been built.

A revision of the Canadian Pacific Railway Company's plan was accepted in 1919, and the Canadian National contended that the rival company is taking advantage of this nine-year-old revision to extend the Cuthbert-Whitford Lake line from Willington to Edmonton. Excepting the section between Willington and Carleton Place, the branch line already constructed.

The chief commissioner reviewed the history of the branch line construction and recommended the diversions asked for.

To Attend Dry Congress

Washington.—For the first time the American Government will be officially represented this year at the International Congress Against Alcoholism, which convenes next month in Antwerp, Belgium. Commissioner Dorn, of the Prohibition Bureau, and Harry A. Anslinger, of the State Department, have arranged to attend.

Courtesy Is Rewarded

New York.—Drifting helplessly in mid-ocean, their radio spattering occasional messages to guide rescuers, the three British aviators, T. Courtney, British aviator, and his three flying companions were rescued from the elements in which they had attempted to fly from the Azores to Newfoundland.

Visit Will Be Short

Winnipeg.—It is unlikely that the prime minister on his forthcoming Western tour will address any meeting in Saskatchewan, although he has in his own constituency of Prince Albert. The haste is occasioned by the necessity of the premier's presence in Paris at the month end to sign the Kellogg outlawry of war pact.

Kellogg Going To Paris

Paris.—Secretary of State, Frank B. Kellogg, has sent word to M. Briand, Foreign Minister, that he will come to Paris to sign the multilateral treaty renouncing war, sailing from New York on the French liner Ile de France, on August 18.

VACANCIES IN GOVERNMENT TO BE FILLED SOON

Ottawa.—A score of pending appointments face the government before the end of the present year, and considerable activity is being engaged among political leaders as to who shall be appointed and whether the appointments will be made before the Prime Minister leaves for Geneva or after he comes back.

Two "minister plenipotentiary" to Paris and Tokio are to be selected, with first, second and third secretaries. At present Hon. Philippe Roy is spoken of as first Canadian minister to France, but no conjecture has been made as to the Dominion's representative in Japan.

There will soon be two vacancies on the Privy Council, due to the retirement of Hon. Dr. McLean and Hon. Frank Oliver, and there already exists a vacancy on the directorate of the Canadian National Railway. In addition, it is understood that the resignation of C. A. Magrath from international joint waterways commission may be accepted this year, which makes another important vacancy.

There are two vacant senatorships due to the death of Senator Cloran and Senator Boyer. There will also be vacancies in the supreme court bench due to the age limit retirement of Mr. Justice Mcgill, while it is further stated that J. Denis, present M.P. for Joliette, is to go to the bench in Quebec. There may be two new lieutenant governors to be appointed in Ontario and New Brunswick, and there is also talk of the retirement of the lieutenant-governor of Saskatchewan. Two permanent commissions are believed immediate, one being the possible new radio commission, and the other a new commission to be sent to direct Canada's part in the St. Lawrence development.

This means at least half a dozen important commissions.

Scores Double Victory

Vancouver Boy Wins Twice In Olympic Sprint Race

Amsterdam, Neth.—William, of Vancouver, sent the Canadian flag to the top of the Olympic pole for the second time in three days, in token of a world victory in the Olympic games. The youthful springer made the jump of 100 metres, and against some of the finest and most experienced sprinters in the world, including Jackson Scholl of the U.S. He held the title, William, the Olympic champion at 100 and 200 metres, the first double sprint winner in the Olympiad of 1928.

Hold For Oregon's Consent

Mexico City.—Sister Concepcion Acosta, sister of La Lela, 22, is under arrest charged with having induced Jose Torral to assassinate General Alvarez Obregon. She has been held in prison as saying: "I hope to be executed. I want to be punished." She did not admit influencing Torral to kill Obregon, but added: "God must have wanted, otherwise He would not have permitted the crime."

To Attend Dry Congress

Washington.—For the first time the American Government will be officially represented this year at the International Congress Against Alcoholism, which convenes next month in Antwerp, Belgium. Commissioner Dorn, of the Prohibition Bureau, and Harry A. Anslinger, of the State Department, have arranged to attend.

Courtesy Is Rewarded

New York.—Drifting helplessly in mid-ocean, their radio spattering occasional messages to guide rescuers, the three British aviators, T. Courtney, British aviator, and his three flying companions were rescued from the elements in which they had attempted to fly from the Azores to Newfoundland.

Visit Will Be Short

Winnipeg.—It is unlikely that the prime minister on his forthcoming Western tour will address any meeting in Saskatchewan, although he has in his own constituency of Prince Albert. The haste is occasioned by the necessity of the premier's presence in Paris at the month end to sign the Kellogg outlawry of war pact.

Kellogg Going To Paris

Paris.—Secretary of State, Frank B. Kellogg, has sent word to M. Briand, Foreign Minister, that he will come to Paris to sign the multilateral treaty renouncing war, sailing from New York on the French liner Ile de France, on August 18.

CHAMPION CHATTER

VOL. 1

Thursday, Aug. 9, 1928.

No. 26

Published in the interests of the People of Champion and Farmers of the vicinity.
GEO. L. DEUE, Editor.

EDITORIAL

We are hearing a lot of compliments from tourists these days on what a fine looking community this is. Glad you noticed it folks; it seems that way to us too.

Folks, Jack Howerton is sitting here watching me do my stuff, so if he inclined to be breezy blame Jack.

Enos!

His wife started nagging him. She thought that he would weep. But, shucks, instead of arguing he simply fell asleep.

The "Sweet" says he is perfectly satisfied with his Mc-Drig outfit.

"Now I'll do the dictating," said the stenographer after she married her boss.

"Good Equipment Makes a Good Farmer Better"

P. Holm has finished swathing fall wheat. Pete knocked it down at the rate of 70 acres a day.

How long has it been since a linen duster was seen decorating the landscape?
J. A. Carlson has taken delivery of an 8 ft. Mc-Drig binder.

A Champion man says: "Summer visitors usually have a few short comings but many long stayings."

Folks, that new International is sure a wonder. Have you seen it?

Ask Dad, He Knows. We are told that babies should be a delicate creature. Most are robust vipers.

Il. Carter has placed an order for a Mc-Drig. threshers.

Now that science has succeeded in giving fragrance to feathers the laboratory wizards might see what they

can do with the unlabeled cigars.
T. Ash has taken out a Mc-Drig binder.

While girls are flappers, many men are flappers.
Tom Geddes has placed an order for a Mc-Drig combine, swather and pick-up.

Our new repair room is now in order. This will mean quicker service to you.

LUNCH

"Hot stew?" "No, 'tso hot!"

Even the most skeptical have admitted that our Combine, pick-up and swather look good.

ALBERTA

Local and General

FOUND—Raincoat. Apply at the Chronicle office.

J. T. Stephenson is visiting his daughter Ella in Calgary.

W. S. Ryan and B. M. Roberts are attending the Elks convention at Regina.

K. R. McLean, Optometrist of Calgary was a business visitor in town Friday.

Mrs. J. M. Moffatt was a highly successful exhibitor of fancy work at the Nanton fair.

There will be a dance in the Alston Community Hall on Friday. The best of music and a good time is assured to all who attend.

The W.I. will meet at the home of Mrs. F. Wise next Tuesday. Mrs. Wise will demonstrate cream cake making. Mrs. J. McDougall will convene the lunch.

Rev. K. Ziegler, of Clearholm, will occupy the Lutheran pulpit on Sunday, Aug. 12th. His address will be specially with reference to missions. The time is 3:00 o'clock.

K. R. McLean R. O., Sight Specialist, 212 Herald Bldg., Calgary, will make his monthly professional visit to Champion, at the Drug Store, Friday, August 31st.

A number of townspeople enjoyed a feed of mountain trout as the result of the visit of A. W. and Lyman Jopling to the Livingstone river district during the week. Now Sam Jopling, Ole Ruening, Martin and Tom Sletto are out to repeat.

Over 400,000 acres of land owned by the Hudson's Bay Company in the Vermilion and Alexandra districts have been withdrawn from the market for colonization purposes. A survey of these lands has recently been made by agents of

the company with the object of carrying out a plan of settlement similar to that adopted in the Clan Donald colony. A small area will be broken on each quarter, comfortable farm buildings will be erected, a wall will be drilled and the land will be fenced, and settlement will commence as soon as the improvements have been completed. The intention is to have the entire colony of 250 families of British settlers placed on the land between

McCormick-Deering 11.2 h.p. engine, nearly new.
Apply Savoy Hotel

now and next spring* and in time to harvest the first crop from their cultivated land in 1929.

Herman Trelle, whose winnings with wheat, oats and peas at the Chicago International have done so much to establish the reputation of the Peace River country as a grain growing area, has been adding further laurels to his already long list. Following Calgary and Edmonton exhibitions where his entries of grain stood at the head of their classes, Mr. Trelle was successful in carrying off championships in both wheat and oats at the International Grain show held in conjunction with the Regina exhibition during the past week.

The Lomond fair, held last Friday was an exceptional success, the attendance being estimated at 3,300 on the grounds. The dance in the evening was patronized by 335 devotees of tripping the light fantastic. The Vulcan band was a feature of the day's program. Ranier won the ball tournament. The aeroplane did not arrive as expected but the exhibits and other features of the programme were of such an excellent character as to largely make up for any disappointment in regard to the aeroplane.

C. E. Anderson threshed fall wheat and rye during the week, as far is known the first to be done in this district. The grain was in the very best of condition, having been swathed for a few days before being picked up by the combine. To judge by the sample of this grain some splendid wheat of real high grade may be expected this fall.

Champion Consolidated

School District No. 40

TENDERS WANTED

TENDERS will be received by the undersigned up to 6:00 p.m. on Tuesday, August 14, 1928, for Van driving service on the Long South West, Short South West, South East, North East and North West routes of the above School District.
The lowest or any tender not necessarily accepted.

Also McCormick-Deering 28 inch Separator, good as new.

See C. H. SUTTON for information in regard to above. Phone 1214, Champion.

Photos of orange groves are prevalent in this vicinity since so many tourists from here are spending their holidays in California.

Mr. and Mrs. J. N. Beaulieu left for Calgary on Monday, Mrs. Beaulieu being in poor health and in need of medical attention.

Franklin Cool was taken to the Calgary hospital on Friday last for treatment which may include an operation.

A sample of wheat left in this office by W. F. Bonarth attracted a great deal of attention and much favorable comment.

To judge by the piles of freight being delivered at the depot daily and the number of cars being unloaded there will be a real busy fall here in every way.

The dance in Campbell's hall following the conclusion of the Chautauque programs on Monday night was very largely attended and an unusually pleasant evening was spent.

Mr. and Mrs. Jas. Lobban of Huxley, Alta., formerly of Champion, passed through town this week en route from Lethbridge where they had been visiting Mrs. Lobban's parents, Mr. and Mrs. Bradley.

The local Chautauque committee introduced a new feature this year in providing a large number of reserved seats, adding considerably to the enjoyment of the programs by patrons. The seats have been stored and will be used again next year.

The community exhibit made by the W.I. at the Carmangay fair was the subject of much favorable comment on all sides. As it was the only exhibit of the kind it was naturally awarded the first prize. Details as to contributors, etc., will be furnished next week.

R. W. Greoway, manager of the International Harvester Company at Lethbridge was a visitor in town on Thursday, visiting the local agency here. He was startled when he realized the amount of machinery sold and on order in this district and the effort that would be required to supply the demand.

The Bible Teaches

John 20:31—But, these are written that ye might believe that Jesus is the Christ the Son of God; and believing ye might have life through His name.

One of the surest ways of keeping business at home is to keep the public informed of what they can get at home.

All the "loyalty" propaganda in use will fail in its effect if efficient advertising is left to outside concerns.
